Suspension Fitment sheet	147
Request for credit/Warranty form	148
4WD Hilift Disclaimer	149
Did you know? fact sheet	150

* Warranty / Fitment sheets must be filled out when a new suspension is fitted. Failure to do so may affect warranty. *
Fitment sheet can be found on page 153 of this catalogue.

PLEASE NOTE:
*All warranty claims are to
 be made to the store where
 the purchase was made.*

Terms, Conditions and Warranties

1st January, 2014

ACCOUNTS:

Account applications that are approved must comply with the following Terms and Conditions:

1. All export orders are to be prepaid prior to shipment.
2. Credit terms are 30 days from end of the trading month.
3. Credit will be suspended if payment isn't made within the trading terms.
4. Unpaid Accounts at 30 days are on stop supply.
5. If no credit account exists all goods must be prepaid before leaving 4Way Suspension factory.
6. If applicant is a company, the Directors Guarantee must be completed by all relevant parties.

FREIGHT & INSURANCE:

Trading terms - ex warehouse unless specified. Goods property passes to the buyer as soon as they leave the 4Way premises, 2a Bessemer St, Blacktown NSW 2148. The buyer may at his option, collect the goods from these premises, or arrange FREIGHT / INSURANCE on his own behalf. Alternatively, freight and insurance will be arranged on the buyers behalf by 4Way Suspension.

CREDIT/WARRANTY RETURNS

Goods for credit or exchange must be returned within fourteen (14) days of invoice date, accompanied by a completed **REQUEST FOR CREDIT** form. Goods returned for a possible warranty claim must be accompanied by a completed **REQUEST FOR CREDIT FORM** and a **COPY OF THE CUSTOMERS INVOICE**. Freight account details will be advised at this time. If returned goods are found not to be within the warranty guidelines and are rejected for warranty, 4Way reserve the right to charge the claimant freight charges.

15% WILL BE CHARGED ON ALL CREDIT RETURNS THAT REQUIRE REPACKAGING.

EXCLUDED FROM WARRANTY

1. Parts that have been incorrectly installed.
2. Interference between shock and other suspension components, causing noise or failure of the shock.
3. Parts that have been involved in an accident or are bent and/or dented.
4. Parts showing evidence of improper tightening of the mounting bolts causing parts to wear or bend.
5. Vice jaw or multi-grip marks on polished section of steel rod, causing damage to oil seals and oil leakage.
6. All parts subject to abusive off road use.
7. All parts used for any type of racing not covered by any warranty.

PLEASE NOTE: Any Springs (Leaf or Coil) or Shocks built as "special order" ie. changed from the 4Way specifications, are not covered by warranty. These units are built to order and therefore 4Way has no control over the usage of these units in any or all circumstances that may vary from what the springs or shocks were intended and designed for.

ONLY PART NUMBERS THAT ARE LISTED IN THE 4WAY CATALOGUE WILL BE COVERED BY WARRANTY

PROOF OF PURCHASE:

Copy of proof of purchase by the end user, (Retail Customer) **MUST** be attached to the claim with a kilometre reading if applicable to the claim. Each 4WD suspension kit must have a warranty card completed with the details and measurements of the vehicle marked as required so that any claim can be processed with the minimum of delay.

53mm Ralph (excl. Landcruiser, commercial use ie Tour Operators etc.....3 Years / 60,000kms
 53mm Ralph Landcruiser 100 Series Front ONLY.....2 Years / 40,000kms
 53mm Ralph Commercial use, Tour Operators inc Mining application.....1 Years / 20,000kms

45mm Big Bore Adjustables - upto 50mm raised suspension.....2 Years / 40,000kms...exc Mining Applications (1 year warranty)

 Toughdog Coil Springs - up to 50mm lift.....3 Years / 60,000kms...exc Mining Applications (1 Year Warranty)
 Toughdog Coil Springs - above 50mm lift.....No Warranty
 Toughdog Coil Springs - used in any off-road competitive event.....No Warranty

SELF FIT (DIY) SUSPENSIONS:

If suspension is fitted by the purchaser and not the licensed workshop, the following must be adhered to if warranty is to apply

1. A fitment measurement sheet must be completed with measurements - (A) Before fitment - (B) After the kit has been fitted and - (C) 500kms after kit is fitted.
2. U-Bolts must be replaced at time of fitment. U-Bolts must also be re-tightened after 500kms have been travelled.

Failure to provide these details will void your warranty.

NOTE: 4WAY SUSPENSION'S OBLIGATION UNDER THIS WARRANTY IS LIMITED TO THE REPLACEMENT OF THE DEFECTIVE PART ONLY. COSTS OF REMOVAL & INSTALLATION OF THE PART ARE NOT INCLUDED. FREIGHT CHARGES TO AND FROM 4WAY ARE TO BE PREPAID BY THE CUSTOMER.

* Freight should be added where required. *

To determine what load you are carrying remember to include the weight of all passengers & driver in the total weight.

The Limited comes standard with (Self Levelling) air shocks. These can be retained or removed as required. If the (Self Levelling) air shocks are removed the self levelling dash light will come on and off intermittently. The air hoses should be sealed off and taped to the chassis so they can be reused at a later date if needed.

Please Note:

The air compressor will need to be turned off. The switch is located in the L/H rear inspection console. An Auto Electrician may need to be consulted if further electrical work is required.

Remember to adjust Torsion Bars after fitting Shocks

* Warranty / Fitment sheets must be filled out when a new suspension is fitted. Failure to do so may affect warranty. *

F250 fitted with 4" leaf springs and 45mm Big Bore Toughdog Adjustable shocks.

Close up of Return-to-Center steering Stabilizer

F250 2003-on

There is a choice of medium and heavy duty springs for the front end of this vehicle.

Original rubber bonded bushes are used for the spring eyes.
45mm bore Big Bore Adjustable shocks are used in this application.

* Freight should be added where required. *

To determine what load you are carrying remember to include the weight of all passengers & driver in the total weight.

Mine Spec Applications: Please note

You must take into consideration the GVM of the vehicle when selecting a suspension kit

Kerb weight: 1765-1815kg.....GVM:2810kg

Carrying excessive and over the GVM loads in the tray **WILL** cause the following problems.

The rear of the vehicle will drop down and the front static ride height will increase causing the struts to be at near full extension. When the vehicle is driven in this condition, the strut will top out on full extension and will start to leak and eventually break.

With a 16" rim fitted to this vehicle, the front BOTTOM of RIM TO GUARD measurement must NOT be exceeded when loaded.

Bottom of Rim to Guard:770 - 780mm.....maximum!!!

With some MINE SPEC tray's weighing in excess of 500kg being fitted to these vehicles the remaining load capacity is only 500kg.

When you also take into account:

- 1:Driver & passengers
- 2:Tools
- 3:Vehicle fuel
- 4: Bar / Winch / Dual Battery / Rollover protection bars.

This reduces the load able to be carried within the GVM of the vehicle even further.

Please call 4Way Suspension on **02-9672 8899** to discuss any mine spec suspension inquiries that you may have to help with the selection of Tough Dog suspension parts for your applications.

*** Freight should be added where required. ***

To determine what load you are carrying remember to include the weight of all passengers & driver in the total weight.

TOYOTA : Landcruiser - 100 Series with IFS

1 of 1

10/00: OnHDJ Turbo
3/98 On: VZJ V8

PRODUCT	PART No	RRP	PRODUCT INFORMATION	TYPE
---------	---------	-----	---------------------	------

FRONT SUSPENSION

SHOCK ABSORBERS	41mm Foam cell	FC41103	\$160 ea	Twin tube / 60mm casing	All
	53mm Ralph	TDR1103	\$275 ea	Twin tube / 70mm casing	All
TORSION BARS	A minimum droop of 60mm must be maintained	4WTB-1600	\$380 pair	1160mm / 32mm (Petrol)	
		4WTB-1610		1210mm / 32mm (Diesel)	
		4WTB-1610BKT	\$50 kit	Bracket Kit	

Remember to adjust Torsion Bars after fitting Shocks

Wheel rim to guard measurement should be for a 16" rim = 740mm, for a 17" rim = 753mm.

Torsion Bars must only be adjusted so the rim to guard measurement is NO more than the measurements stated above. Any deviation may promote failure of front end components. It should also be noted that this vehicle does not come equipped with Upper Bump Stops.

REAR SUSPENSION

SHOCK ABSORBERS	41mm Foam cell	FC41114	\$160 ea	Twin tube / 60mm casing	OE & 25mm
	40mm Adjustable	BM401114	\$200 ea	Twin tube / 60mm casing	OE & 25mm
	53mm Ralph	TDR1114	\$275 ea	Twin tube / 70mm casing	OE & 25mm
	45mm Adjustable	BMX1114/2	\$275 ea	Twin tube / 70mm casing	OE & 25mm
COIL SPRINGS		TDC949HSL	\$120 ea	Carries up to 300kg	OE Height
		TDC949L	\$120 ea	Carries up to 300kg	25mm lift
		TDC949HL	\$150 ea	Constant Load of 300kg to GVM	25mm lift

25mm raised coils only are recommended for this vehicle. 45-50mm raised coils will give the vehicle a "tail up" attitude. It is not recommended that the front Torsion Bars be wound up to compensate for this "tail up" attitude due to the length of the front shocks. When a heavy load is carried, it is recommended that Air Bags, that fit inside the rear coils, be fitted.
